Description

This very fine example is of the tablespoon size and modelled in the Hanoverian pattern. The spoon bowl has a very good thick tip to the end, as does the marrow scoop end. The reverse of the bowl displays a drop motif and is also engraved with a very unusual contemporary Crest. The central section displays an extremely crisp set of hallmarks. The Marrow spoon is in exceptional condition and has a very good colour.

Length: 9.5 inches, 23.75 cm.
