

MATTHEW BOULTON. A very fine George IV Wine Coaster made in Birmingham in 1822 by the Matthew Boulton Company.

Sold

Description

The Wine Coaster is circular in form and the sides are decorated with alternate lobes and flutes. The everted rim is of a most unusual design with a wavy edge decorated with gadrooning interspersed with anthemion motifs flanked by acanthus foliage. The original wooden base is centred by a silver boss with reeded edge engraved with a contemporary Crest. The Coaster is in quite excellent condition and is very well marked. This is the first time we have seen this specific design from these famous workshops.

Height: 1.9 inches, 4.75cm.

Diameter: 7 inches, 17.5cm.
