Short Description

These extremely rare Bottle Stands both have three unusual scroll feet and display a very crisp raised scroll border decorated with foliate scroll work. The centre of each stand is engraved with a contemporary Crest and the word LAW on the reverse. Each piece is in excellent condition and both are marked on the reverse with the crowned harp and the Hibernia. It is common at this date not to see a makers mark or date letter on Irish silver - a peculiarity of this centre of production. Both items are in quite excellent condition and are an exceptionally rare item from this city, with an outstanding weight.
